# May is ELECTRICAL Safety Month

We observe National Electrical Safety Month to promote awareness and reduce the risk of electrical fires, injuries, and fatalities. Here are a few important safety tips to keep in mind:

- **Water and electricity** are a **dangerous** combination.
- **Lightbulbs** should match the **recommended wattage** for all fixtures.
- **Extension cords** should only be used as **temporary** solutions. Never run them under rugs, through walls, or across doorways.
- **Avoid overloading** electrical circuits.
